Hi Mike,

After several moves during the past dozen years plus retirement, I'm finally trying to get organized. In this process, I discovered the enclosed picture of Babs and the photo and classmate signatures of Second Grade! You may hang on to these and do with them as you deem appropriate.

I seem to have misplaced or misunderstood the web site you referred to some time ago, so if there is still time, here are some bio updates:

Retired at age 65 and a half after 40 years of social work in settings ranging from suicide prevention centers to inner city hospital emergency departments plus a smattering of administrative positions and conducting psychotherapy in geriatric settings.

Two children from a first marriage. Daughter became Shaker Heights, Ohio first female firefighter and is in her 26<sup>th</sup> year. Son has his own construction company. Three grandsons who live for ice hockey.

My second marriage to Kathy Burns is closing in on 20 years. Kathy is a physician, board certified in forensic psychiatry. She works very hard in an administrative position with the local alcohol, drug and mental health board, plus serves as an expert witness and class action settlement monitor in jails and prisons in several states. I'm her domestic administrative assistant - she'll never have to clean another toilet.

We are settled in a condo in Westerville, Ohio, a suburb of Columbus. We just bought our "escape" house on a lake called Apple Valley about an hour away. I'm in fairly good health, still like to party, and feel very fortunate to be able to enjoy all that comes with retirement and a loving family.

Hope this finds you well and sincere thanks for your work on our reunion. I'll be there!
